ODYSSEY BIO

HOW TO PAY WITH BITCOIN

BEFORE YOU START

Bitcoin is simply digital money. You buy it in an app with your normal money, then send it to us like a bank transfer. We only accept Bitcoin.

- [ ] Step 1: Get ready — You only need 4 things. Have them next to you before you start.
- [ ] Step 2: Download an exchange app — An exchange app is where you buy Bitcoin with normal money.
- [ ] Step 3: Buy Bitcoin — Now put money in and turn it into Bitcoin.
- [ ] Step 4: Order on our site — Pick what you want and tell us where to send it.
- [ ] Step 5: Save your order number — Right after you order you get a number like OB-10001.
- [ ] Step 6: Get our Bitcoin address — On your order page you see our address and a QR code.
- [ ] Step 7: Send the payment — This is the important part. Go slowly.
- [ ] Step 8: Upload your proof — Show us you paid so we can match it fast.
- [ ] Step 9: We do the rest — You're done. Here's what happens now.

MY ORDER NOTES

Order number: OB- _____

Amount to pay: _____

Date paid: _____

Transaction ID: _____

STEP 1 OF 9

GET READY

You only need 4 things. Have them next to you before you start.

1. Your phone.
2. Your ID (driver licence or passport).
3. Your bank card or bank app.
4. About 15 minutes. It is faster next time.

> TIP: Bitcoin is simply digital money. You buy it in an app, then send it to us like a bank transfer. That's all.

STEP 2 OF 9

DOWNLOAD AN EXCHANGE APP

An exchange app is where you buy Bitcoin with normal money.

1. Australia: CoinSpot or Swyftx. Other countries: Coinbase, Cash App, Revolut or Kraken.
2. Open the App Store or Google Play, search the name, press Get or Install.
3. Open the app and sign up with your email and phone.
4. The app asks for a photo of your ID and a selfie. Follow its instructions.
5. Approval usually takes a few minutes, sometimes up to a day.

> TIP: We don't own or recommend any app. Choose one that is legal in your country.

STEP 3 OF 9

BUY BITCOIN

Now put money in and turn it into Bitcoin.

1. In the app, press Deposit and add money from your bank (PayID, card or bank transfer).
2. Press Buy, choose Bitcoin (BTC).
3. Buy about A$10 more than your order total. The extra pays the small sending fee.
4. Press Confirm. Your Bitcoin now shows in your app balance.

> TIP: Not sure of your total yet? Do step 4 first, then come back.

STEP 4 OF 9

ORDER ON OUR SITE

Pick what you want and tell us where to send it.

1. Open a product, choose the strength and quantity, press Add to cart.
2. Press the bag icon at the top, then Continue to checkout.
3. Sign in or create a free account (it keeps your orders safe).
4. Choose your country, type your full address and phone number.
5. Press Place order. Nothing is charged yet.

STEP 5 OF 9

SAVE YOUR ORDER NUMBER

Right after you order you get a number like OB-10001.

1. Write it down or take a screenshot.
2. Your order page opens automatically. It shows the exact amount to pay.
3. Lost it? Go to Account, then Orders, and tap your order.

STEP 6 OF 9

GET OUR BITCOIN ADDRESS

On your order page you see our address and a QR code.

1. On a computer: open your exchange app on the phone and scan the QR code.
2. On the same phone: press Copy next to the address.
3. Only use the address shown on your own order page. We never send a different one by message.

STEP 7 OF 9

SEND THE PAYMENT

This is the important part. Go slowly.

1. In the exchange app press Send (or Withdraw), choose Bitcoin.
2. Network: choose Bitcoin (BTC). Never BEP20, ERC20 or Lightning.
3. Paste the address, or scan the QR code.
4. Check the first 4 and last 4 characters match our address.
5. Type the amount shown on your order page and make sure that amount arrives, not less after fees.
6. Press Send and confirm. Status shows Pending, then Confirmed after about 10 to 60 minutes.

> TIP: Bitcoin payments can't be undone. Checking twice takes 10 seconds.

STEP 8 OF 9

UPLOAD YOUR PROOF

Show us you paid so we can match it fast.

1. In the exchange app, open the payment in your history and take a screenshot.
2. Copy the Transaction ID (also called TXID or hash) if the app shows one.
3. Go back to your order page, press Upload screenshot and pick the photo.
4. Paste the transaction ID and press Submit.

STEP 9 OF 9

WE DO THE REST

You're done. Here's what happens now.

1. We check the payment and mark your order Paid.
2. We pack it and mark it Packed.
3. We ship it with free express delivery and add your tracking number.
4. You see every status on your order page and on Track order.

6 MISTAKES TO AVOID

1. Wrong network
Only Bitcoin (BTC). Other networks lose the money.

2. Paying too little
Some apps take the fee from the amount. The amount that arrives must match your order.

3. Typing the address
One wrong character sends money to a stranger. Always copy or scan.

4. Using an old address
Always take the address from your current order page.

5. No proof uploaded
Without a screenshot it takes longer to find your payment.

6. Paying before ordering
Place the order first, so you know the exact amount and have an order number.

QUESTIONS PEOPLE ASK

Can I pay with card or bank transfer?
No, we only accept Bitcoin. You use your card inside the exchange app to buy the Bitcoin.

How long does it take?
Setting up the app: 10 to 30 minutes the first time. The payment itself: usually 10 to 60 minutes to confirm.

How much are the fees?
The exchange charges a small buying fee and a sending fee, usually a few dollars. That's why we suggest buying about A$10 extra.

I sent too little. What now?
Upload your proof anyway and contact us with your order number. You can send the difference to the same address.

I sent too much.
Contact us with your order number. We'll sort it out with you.

I chose the wrong network.
Contact your exchange app first. Payments on the wrong network often can't be recovered.

Is it safe?
Yes, if you use the address on your own order page and check it before sending. We never ask for your passwords or app codes.

Is it private?

Your name isn't on the payment, but every Bitcoin payment is recorded on a public ledger.

Can I cancel after paying?

Bitcoin can't be reversed. Contact us with your order number and see our Returns page.

Do I need an account?

Yes, a free account lets you see your order, upload proof and track delivery.

The Bitcoin price changed after I ordered.

Pay the amount shown on your order page at the time you pay. If unsure, contact us first.

Bitcoin payments are recorded on a public ledger and are final once confirmed. Still stuck? Visit odyssey-bio.com/contact with your order number.
